Our Curriculum

Our exciting curriculum is divided in to three terms:

Your final High View adventure...

In the autumn term, we will be learning about rivers and beginning to explore black history, meanwhile revisiting electrical circuits and the human body in science. Other topics covered in this term will be graffiti, coding and online safety, in addition to our trips to Crucial Crew and Robinwood.

We kick-start the Spring term looking at the history of the British Empire and Commonwealth, before investigating habitats, light and photography. Summer will quickly be upon us and it's time for 'Deforestation, Destruction, Death!' This is when we delve deep in to the Rainforest and look at the current issues in climate change. It is also time for the final production and celebration of the brilliant time you have had at High View.
