

How many counters can you see?

- In **each** of the ten frames, how many counters can you see?
- How many are one colour? How many are the other colour?
- Can you say each **pair of ten frames** as a calculation?

1. **10** red counters add **10** yellow counters is **20** counters
2. Double **10** counters is **20** counters
3. Double **10** is **20**

Double 10 is 20

- Can you complete the number sentences

- How about creating your own double patterns on the blank sheet?

or

7 yellow counters add 7 red
counters is 14 counters altogether.

Double 7 counters is 14 counters.

Double 7 is 14.

Tip: Use the same number of red counters as yellow counters but they **don't** have to look exactly the same.

Doubles of numbers to 10

__ yellow counters add __ red counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .

__ yellow counters add __ red counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .

__ yellow counters add __ red counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .

__ yellow counters add __ red counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .

__ yellow counters add __ red counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .

Make your own doubles of numbers to 10

__ yellow counters add __ red
counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .

__ yellow counters add __ red
counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .

__ yellow counters add __ red
counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .

__ yellow counters add __ red
counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .

__ yellow counters add __ red
counters is __ counters altogether.

Double __ counters is __ counters.
Double __ is __ .
